We encourage open communication about all medical decisions made for your pet and request that all clients complete a resuscitation directive upon arrival, regardless of the severity of illness/injury their pet is experiencing. The doctors and staff at CARE will make every effort to prevent complications arising from your pet's illness/injury or procedures performed in our hospital. Please select one of the following options:

Attempt Resuscitation (*CPR will be initiated* and all efforts will be made to resuscitate your pet. Costs associated with CPR may be \$400-\$500 in addition to your estimate).

Do Not Resuscitate – DNR (*no CPR will be performed*) This option is always an acceptable choice based upon your beliefs and needs. In the event your pet is suffering, humane euthanasia may be performed.
